Stephen Watson Volunteer Questionnaire to Gene Watson AKA Gino Antonio Vescio

Instructions: Circle Yes, No, or Don't Recall to questions and return paper in envelope to your son for his court case telling the government to leave him alone. A judge will make a decision.

- When your son visited you in Italy is it true you said your motorcycle accident was not accident but an attempt on your life and the Italian police did not properly investigate? { | YES | NO | Don't Recall | }

- Did you see your son use mylar blanker, emergency blanket to try to shield himself. { | YES | NO | Don't Recall | }

- Did you see your son put shielding around his stomach like aluminum foil and tape. { | YES | NO | Don't Recall | }

- Did you son tell you that he thought researching UFOs made him a target by the government. { | YES | NO | Don't Recall | }

- Did you suffer from frequent urination disturbing your sleep having to get up and pee and also when commuting on you motorcycle or walking with your son from the train station where you had to use the restroom in someones yard which was very degrading? { | YES | NO | Don't Recall | }

- Did your son tell you he thought the directed energy is microwave and could be coming from cell towers, like a solid-state directed energy weapon is put on a cell toward used against human targets. A cell tower can be observed walking back to your house from the train station in Ferno/Lonate Pozzolo, Itay? { | YES | NO | Don't Recall | }

- Did your son tell you that someone using directed energy may becoming from a neighbors apartment where your son heard some bumping before directed energy activity and the sensation of pain? { | YES | NO | Don't Recall | }

- Did your son tell you that he thought the harassment was coming from the FBI like there is an office in Milan and Rome called a legat (Legal attaché)? { | YES | NO | Don't Recall | }

- When your son was staying with you in Italy were the Italian police always calling and knocking on the door regarding a fine relating to your motorcycle accident which you thought was not properly investigated, there was foul play, like a targeted attack at the round-a-bouts? { | YES | NO | Don't Recall | }

- When you were sharing ideas with your son on your iPad like propulsion and UFO topics did you make statements or believe your E-Mial communication was being interfered with? { | YES | NO | Don't Recall | }

- When you were experimenting with your ion lifters, AC Ionic wave did you tell your son you thought someone was going through your room upstairs where you did your inventions, maybe the man that lived with you downstairs named Ivano but you weren't sure? { | YES | NO | Don't Recall | }

- Did you tell your son that you were banned from the local junk yard where you got scrap material for your ionocraft and electrical experiments that occurred after communicating with your son via iPad and your son releasing self published books on your UFO theories? { | YES | NO | Don't Recall | }

- When you were communicating with your son via E-mail your son requested not to discuss UFOs and propulsion because he claimed directed energy abuse that would fit all the elements of battery, bullying by the US government? { | YES | NO | Don't Recall | }

- Is it true the directed energy harassment, pestering that your son claims affected E-Mail communication where you stopped corresponding since it was like you could not say what you wanted or the communication was not private? { | YES | NO | Don't Recall | }

- When your son visited you in previous years like 2019 is it true he complained of directed energy like targeting to his stomach and had frequent urination and did not get enough sleep, was tired, staying at Airbnb's or apartments he would rent when visiting and you driving him around in your Fiat? { | YES | NO | Don't Recall | }

- Is it true your first wife Karen Ann during the late 1960s or early 1970s when you were a young couple had brain surgery because of suffering from seizures and she had a metal plate in her head, a doctor told her or you to stay away from microwave ovens? { | YES | NO | Don't Recall | }

- Is it true your first wife Karen Ann after brain surgery was not the same person, once a speed typist, suffered from speech or stuttering problems afterwards. She had to settle for menial work with frequent unemployment and never established a career? { | YES | NO | Don't Recall | }

- When you lived in America during the 1980s were there threats like death threats by phone and attempts on your life like someone shooting at your tire running you off the road after you tried to build a man-made flying saucer and showing it to a rep of Ross Perot? { | YES | NO | Don't Recall | }

- Is it true that you tried showing your flying saucer and propulsion ideas to Bell Helicopter, NASA, Vought in America during the 1970s and 1980s but faced rejection. { | YES | NO | Don't Recall | }

- Is it true when your son tried promoting your ideas in 2014 releasing the self-published book Gene Watson Flying Saucers and sending letters to Lockheed Martin, NASA, Ford Motor Rolls Royce etc. He received no response or received rejection letters? { | YES | NO | Don't Recall | }

- Is it true you showed your inventions like your ionocraft; ion wind models to people in Italy like your boss when you worked for a crane company as a welder, even a newspaper but people only politely thanked you and did not further pursue your inventions? { | YES | NO | Don't Recall | }

- Is it true you sold one of your small ionocraft models that you call AC ionic wave at an art gallery in Milan thanks to the help of your daughter Esther Watson who sees your inventions as art? { | YES | NO | Don't Recall | }

- Is it true that your propulsion ideas that your son put in a book is to help humans become like Star Trek and go to mars and you think humans need to become space-faring for long term survival as a species? { | YES | NO | Don't Recall | }

- Is it true you grew up Christian like Baptist, later Catholic as an adult, and later moving back to Italy identified as Jewish and you did not believe in designing weapons. Your propulsion ideas were for spacecraft like a rocket to get to Mars or a flying saucer that you termed a ground-effect vehicle, something similar to a hover-craft or a flying vehicle (VTOL)? { | YES | NO | Don't Recall | }

- Is it true during the late 1960s or early 1970s at Arkansas Polytechnic University a college professor named Dr. Bronco helped you build a small man-made flying saucer using the University's computer for calculations and machine shop lathe. The FAA issued orders not to fly it in the air over a certain amount of feet and it made the school year book and local newspaper? { | YES | NO | Don't Recall | }

- Is it true that you believe your ideas were stolen while living in America like the invention of the weed eater and the laser printer and that you used to work at Xerox and Texas Instruments? { | YES | NO | Don't Recall | }

- Is it true you did not complete going to college and are self-taught like welding, electronics, making ion wind small model craft that swing back and forth to a jolt of electricity? { | YES | NO | Don't Recall | }

- Is it true ideas that you call generalized propulsion that your son put in the book Gene Watson - Flying Saucers are not exactly new or original like a pulse detonation engine or a rocket for space travel or a flying saucer that uses a fan; the Coandă effect. Nasa already has rocket designs that use ion thrust and plasma for space travel. It is just your version and what you think would work? { | YES | NO | Don't Recall | }

- Is it true you think your ionocraft models, also called lifters, is something similar to what Nikola Tesla could have discovered with his electrical AC experiments over 100 years ago? { | YES | NO | Don't Recall | }

Is it true you discovered ion wind thrust by experimenting with Van der Graaf Generator in the 1970s. Something anyone can purchase at an electronic kit education store? { | YES | NO | Don't Recall | }

Is it true you became interested in flying saucers as a kid after being adopted in America from watching classic science fiction movies like Forbidden Planet? { | YES | NO | Don't Recall | }
